

Drive with a system.

Hydraulic drive units for Klauke tools.

Klauke stands for connections with system. This applies for both tool and connecting material combinations as well as for individual components within hydraulic tools and systems. All system pumps are capable of driving all Klauke crimping, cutting and universal heads. In addition, individual types with appropriate functions can also be connected to the Bus Bar Tool centre.

All system pumps are precisely matched to Klauke tools and generate 700 bar pressure.

- **System pumps with 700 bar pressure:**
 - Foot pumps
 - Electric pumps for 115 V to 400 V
 - 18 V battery powered hydraulic pump, with Li-ion technology.
- **For driving:**
 - Crimping heads and crimping tools for workbench mounting
 - Cutting heads
 - Bus bar processing centres.

Currently the only electro-hydraulic drive unit on the market, the **EHP 4** offers the option of regulating the piston feed speed. This means the optimum speed can be selected for every application.
